

## Breakdowns

### Keying

Footage Courtesy of Escape Studios.

Waterfall footage from - [www.videoblocks.com](http://www.videoblocks.com)

I took the shot through to completion using NukeX and Photoshop to create the BG, stitching together images and recreating the waterfall and ripples.

### Roto with Integration

Footage Courtesy of Escape Studios from the short film 'The Hunt for Gollum'.

Waterfall footage from - [www.videoblocks.com](http://www.videoblocks.com)

Basic rain render courtesy of Anthony Tan (Technical Assistant at KMM)

I took the shot through to completion using SFX for the roto and NukeX, retiming the rain to match and adding the waterfall and fog elements.

### CG Integration

Footage Courtesy of Escape Studios.

I took the shot through to completion using SFX for the roto and NukeX for the CG integration and impact dust.

### Roto with Integration

Footage Courtesy of Escape Studios, from the short film 'We Are One'

I took the shot through to completion using SFX for the roto and NukeX and Photoshop.

### Wire Removal

Footage Courtesy of Double Negative and Escape Studios.

I took the shot through to completion using NukeX.
